

# Lanka Academy Of Technological Studies (Pvt) Ltd

## PRE SEA TRAINING COURSE FOR ENGINE RATING (MOTORMAN CDC)

### ISO 9001 2008 CERTIFIED ACADEMY

*Approved by the directorat of Merchant shipping in Sri Lanka*

#### Introduction:

Lanka Academy of Technological Studies (Private) Ltd is created to offer quality Training to Sri Lanka and foreign Students at affordable rates. We have established the academy in February 2001 and is registered as a public liability company and is approved by the Director of Merchant Shipping in Sri Lanka to conduct Marine Courses. The academy employs qualified Lecturers and is managed by a pioneer in Maritime Training, Capt. E.S.M. Senenayake who has obtained MSc in Maritime Training from World Maritime University – Sweden. He has been responsible in commencement of Marine Short Courses in Sri Lanka from 1988 and is a founder member of two other Maritime Training Institutes in Sri Lanka.

Lanka Academy of Technological Studies Has obtained ISO 9001 (2008) Standards which is mandatory for Maritime Training Academies and all courses conducted are supervised by the Director General of Merchant Shipping.

There is a word wide shortage of Trained Seafarers and specially Sri Lankan Seafarers are in demand and presently Recruiting Companies are finding it difficult to find Trained Seafaring Officers to meet the demand. Therefore we have embarked on a programmers to Train Navigating Watch Keeping Officers Restricted for 3000 GT Sailing on Near Coastal Voyages (Class 4) and Navigating Watch Keeping Officer Restricted to 500 Gt Sailing on Near Coastal Voyages (Class 5) Ranks as those Ranks are high in demand.

A Class 5 Certificated Officer can earn over 1200/= US \$ per month and Class 4 Certificated Officer can earn over 1500/= US \$ per month and depending upon the ability of the individual, They can qualify to higher ranks such as Class 3, 2 and 1 where they can even earn over 5000/= US \$ per month.

### Entry qualifications
