

Marine Surveyor Training

Lanka Academy of Technological Studies (Pvt) Ltd Prospectus

We are a leading Maritime Training academy approved by **Director General of Merchant Shipping of Sri Lanka to conduct Maritime Related Standards of Training, Certification and watch Keeping (STCW) convention.**

We cater to the development of Maritime Training sector and currently holds a student base of over 25,000 following Maritime Related Training courses and renewal of qualification.

Our qualified and industrial experienced faculty holds the ability to deliver necessary lecturers and demonstrations, we have modern class room and other facilities located at Fishery Harbour – Moratuwa – close to Panadura Railway Station.

Worldwide there is a great demand for documentation of qualified Maritime Surveyors, we are embarking on a program to improve the knowledge of existing Marine surveyors and issue them a certificate which will help them to improve the carrier opportunities.

We propose the qualifications to be upgraded in stages in modular form.
